## Appendix: scoring rubric

Each connection earns points for signals associated with fake or low-quality profiles. A connection is flagged once its score reaches 3.

### Heuristic score (H) — from your export data

| Signal                            | Points |
|-----------------------------------|--------|
| No company or job title listed    | +3     |
| No job title listed               | +1     |
| Scam/spam term in job title       | +3     |
| Promotional text in name          | +3     |
| Contact info or link in job title | +2     |
| Missing first or last name        | +2     |
| Digits or symbols in name         | +2     |
| Emoji in name                     | +1     |
| Implausibly short name            | +2     |
| Name in ALL CAPS                  | +1     |
| Duplicate profile URL             | +2     |
| Duplicate empty profile           | +2     |
| No profile URL                    | +1     |

### Enrichment score (E) — from scraped profile (simulated Apify)

| Signal                                     | Points |
|--------------------------------------------|--------|
| Very low connections (under 50)            | +3     |
| Low connections (under 150)                | +1     |
| Very few followers (under 50)              | +1     |
| No profile photo                           | +2     |
| No experience, education or certifications | +3     |
| No experience or education listed          | +1     |
| No headline                                | +1     |
| No about section or skills                 | +1     |
| LinkedIn Premium (trust signal)            | -1     |
| Influencer badge (trust signal)            | -1     |
| 3+ certifications (trust signal)           | -1     |
| 500+ connections (trust signal)            | -1     |
